MODERN ENERGY SOLUTIONS

Let Dave's World drastically decrease the cost of heating and cooling your home or business with a new heat pump.

Heat pumps operate year round, efficiently producing both heating and cooling for homes and businesses. At Dave's World we've installed thousands of heat pumps throughout Maine, keeping our customers comfortable while lowering their heating/cooling costs.

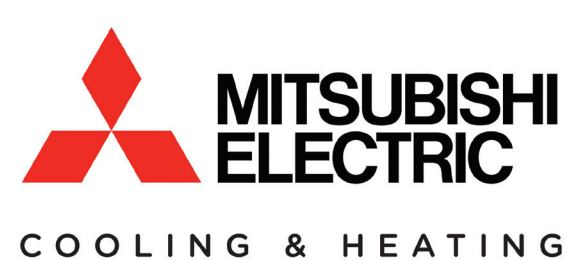

Heat pumps and air conditioners are ductless, meaning they require no ductwork to transfer heat or cooling. These heat pump systems are also great for homes with existing hydronic, forced hot water or boiler systems.
